

Joshua Tesch

Web Developer

joshuastesch@gmail.com • 801-703-1750 • joshuastesch.dev

Summary

Full-stack web developer with 4+ years building and maintaining production WordPress, headless CMS, and JavaScript applications. Recently expanded into AI tooling and automation — shipping a **25-tool MCP server** for WordPress management, a fully **autonomous multi-LLM SEO audit pipeline** spanning OpenAI, Gemini, and Claude simultaneously, and resolving **1,300+ accessibility and SEO issues programmatically** at scale. Strong focus on performance, maintainable code, and cross-functional collaboration.

Professional Experience

Reading Horizons — Web Developer / AI Tooling

Feb 2026 – May 2026

Contract

- Built **wp-expert**, a 25-tool Node.js MCP server for AI-driven WordPress management; dual-site routing, write confirmation gate, dynamic REST resolution, ACF fallback, self-refreshing schema system across 6 modules
- Architected a fully **autonomous Python SEO audit pipeline** replacing manual analyst workflows; orchestrates GSC API, DataForSEO, Firecrawl, and all three major LLM APIs; publishes rendered HTML dashboard to WordPress via REST API
- Programmatically resolved **1,308 missing image alt texts**, 124 meta descriptions, and 196 Yoast title overrides site-wide via WP-CLI and REST API
- Reduced Tailwind CSS bundle **84%** (696 KB → 112 KB); eliminated primary TBT source via IntersectionObserver lazy-load; implemented LCP preload with `fetchpriority=high`
- Built 5 custom Gutenberg blocks and CPTs from scratch: Download Cards, Literacy Talks podcast player, Gravity Forms, Report Microsite, Featured News
- Security hardening: login-gated template access, XML-RPC disable, AJAX nonce validation, per-IP rate-limited logging

9th South Digital — Contractor

2022 – Present

Selected Projects & Contributions

The Piped Peony

Full-stack application using **Next.js**, **TypeScript**, **Tailwind CSS**, and **Strapi headless CMS**. Modular components, API-driven content, UI/accessibility recommendations. (thepipedpeony.com)

Celebree School

Custom **WordPress theme** with **Elementor** and **ACF** for a national multi-location brand. Reusable templates, client-editable content system, accessibility and brand consistency across locations. (celebree.com)

Modern Metals

Custom **WordPress theme** using **Elementor** and **ACF**. Flexible reusable templates, fully client-editable content system, UX and performance improvements. (modernmetalsutah.com)

SWAN Toilets

Custom WordPress **eCommerce site** using **WooCommerce**. Reusable templates, optimized product layouts, UX recommendations for product discovery and conversion. (swantoilets.com)

STRS Development — Web Developer

2025 – Present

Collaborated with cross-functional teams to deliver new client projects and contribute to scalable, production-ready web applications. Participated in discussions around usability, performance, and maintainability while implementing features and UI updates.

Omni Creative — Web Developer / Contractor

2024 – Present

Forevering Jewelry

Developed a custom **Shopify eCommerce site** using **Liquid**, delivering a responsive, conversion-focused storefront. Implemented reusable theme components and contributed UX improvements to product presentation and checkout flow. (foreveringjewelry.com)

Skills

AI & Automation

Claude API, OpenAI API (GPT-4o), Google Gemini API, Model Context Protocol (MCP), Multi-LLM Orchestration, Python

CMS & E-Commerce

WordPress (Gutenberg, ACF, Elementor, Beaver Builder), Shopify (Liquid), WooCommerce, Headless CMS (Strapi)

Dev & Delivery

Git, CI/CD, Docker, WP-CLI, Agile Development

UX / UI

Responsive Design, Figma, Adobe XD, Photoshop, Design-to-Development Collaboration

Web Development

React, Next.js, Node.js, TypeScript, PHP, JavaScript (ES6+), HTML5, SCSS, Tailwind CSS, Bootstrap

Performance & Optimization

Core Web Vitals, Page Speed, Accessibility (WCAG), SEO, Structured Data (JSON-LD)

Cloud & Hosting

AWS (EC2, S3), Vercel, WP Engine, cPanel

Collaboration

Client Communication, Cross-Functional Collaboration, UX Recommendations, Post-Launch Support

Education

Associate of Science in Computer Science

Salt Lake Community College — Taylorsville, UT
Emphasis in Network Infrastructure, Linux Administration, and Cybersecurity
